Book Presentations	19:00 - 19:10	Venue: COAC (Col·legi d'Arquitectes de Catalunya) Plaça Nova 5 Introduction of author by R. Blythe Introduction of editors by R. Blythe	Food City – CJ Lim In <i>Food City</i> , a companion piece to <i>Smartcities</i> and <i>Eco-Warriors</i> , innovative architect and urban designer CJ Lim explores the issue of urban transformation and how the creation, storage and distribution of food has been and can again become a construct for the practice of everyday life. <i>Food City</i> investigates the reinstatement of food at the core of national and local governance - how it can be a driver to restructure employment, education, transport, tax, health, culture, communities, and the justice system, re-evaluating how the city functions as a spatial and political entity. The Practice of Spatial Thinking: Differentiation Processes - How do designers in research-driven practices differentiate themselves from each other and form distinctive platforms for future practice. Leon van Schaik and SueAnne Ware with Colin Fudge and Geoffrey London Volume One Contributors: Benedict Anderson, Suzie Attiwill, Nigel Bertram, Richard Black, Stephen Collier, Graham Crist, Harold Fallon, Arnaud Hendrickx, Paul Minifie, Vivian Mitsogianni, Stephen Neille, John Tarry, Jo Van Den Berge, Gretchen Wilkins http://www.blurb.com/b/5627774-the-practice-of-spatial-thinking	 
PRS Opening Lecture	19:10 - 20:00	Venue: COAC (Col·legi d'Arquitectes de Catalunya) Plaça Nova 5 Introduction P. Gough by R. Blythe	Keynote Address Professor Paul Gough (Pro Vice-Chancellor and Vice-President, College of Design and Social Context, RMIT University) Title: 'A wavering line... is the product of a wavering mind' 'A line should be as sharp and precise as a word of command. A wavering line which dies away carries no conviction or information because it is the product of a wavering mind. Every line should be put in to express something. Start sharply and finish sharply. Press on the paper.' William Godfrey Newton, Professor of Architecture, 1928-33, Royal College of art, London, UK This keynote presentation will reflect on how analytic drawing can lend order to chaos and, in this centenary year, will examine the positions taken by those holding the front-line of integrated scholarship. There will be a special emphasis on the theatre of research evaluation, engagement and impact. Discussion
